IN NORTHFIELD IT'S The Gates Cafe One of Minnesota's Best It's COOL at the GATES!

During the recent record-breaking heat many Gates patrons have experienced keeping their appetites up to normal. The new system creates an atmosphere which makes this cafe's choice menus even more appealing.

Clean, fresh water cools the air and a fan which sends it in a continually circulating current through every corner of the large room which comfortably accommodates one hundred persons. Scorching days the temperature in the cafe has been 84 and 85 degrees, which is a comparison to the general temperature.

Another factor which the patrons know is the knowledge that Gates' foods are prepared with unvalued care and skill. They are prepared in a walk-in refrigerator which maintains a temperature of 36 degrees.

Menu selections are the most comfortable surroundings in which to choose from them.
