 Previous hospital treatment None  
 Condition when last discharged.....  
 Character or type of insanity Epilepsy  
 Habits Temperate Physical condition Good  
 Opinion of Supt. as to condition at admission Epileptic  
 Opinion of Supt. as to propriety of admission Justified

### SPECIAL HISTORY OR REMARKS.

Mental state since admission here quiet, agreeable to those about him; has little or nothing to say except when addressed, then says little. History states he has had spells of unconsciousness, possible epileptic. He denies such spells. Seems somewhat disconcerted and sluggish; takes little interest in things about him; somewhat depressed; is somewhat inclined to be careless of his personal appearance. Denies syphilis but admits Gonorrhoea.

### SUBSEQUENT HISTORY.

Escaped JUN 25 1922 Returned JUN 28 1922 Escaped NOV 15 1922 Returned NOV 16 1922
